Speaking Topics in 2018-2019:

Healing from Father Wounds / Healing from Mother Wounds:

Father wounds keep you from intimacy with God. Mother wounds prevent you from receiving from God. Both types of wounds carry completely different symptoms that can destroy one's life if left unhealed, and both must be addressed if anyone desires to walk in wholeness and victory in Christ.

The Lord has given Jamie unique insight about healing from father and mother wounds using a 5-step prayer bridge. These 5 steps frame a path to complete healing and restoration for the broken, neglected heart.

Prophetic equipping intensives:

Two-day prophetic workshops teaching how to hear God; how to operate in the Issachar and Perez anointings; prophetic protocol; how to receive prophetic words from the Lord; prophetic checks and balances; prophetic intercession; cultivating a prophetic spirit; the basics of understanding dreams and visions; various kinds of activations, and more. Class attendees are provided with notes and follow-up resources for their personal study.

Amplify: Greater Influence, Greater Access, Greater Exploits:

In this professional-level training workshop, Jamie teaches how ministers can use e-commerce to expand your reach, make more disciples, and increase your ministry income. Jamie believes that e-commerce is THE vehicle God has created to facilitate the transfer of wealth, and she is a much-sought-after teacher and mentor on this subject. This workshop includes some follow-up technical support and training for your ministry volunteers.
